Applications: Through the electronic system iCompete Natural – Registration type PREMIUM (www.icompetenatural.com)

Competition conditions:

1. iCompete Natural is a civil association authorized to organize sports events. For competitors from the Slovak Republic, the possibility of starting the ICN competitions is conditional on registration in the iCompete Natural system for the given calendar period. The same condition also applies to foreign participants of the competition.
2. The competition is intended for athletes who prepare only with natural - natural means of nutrition, without the use of any substances harmful to health. Especially NOT with the help of doping, the list of prohibited substances listed on the WADA list (http://www.antidoping.sk/images/data/zakazane_latky/2017/ Zoznam_2017__Monitorovac%C3%AD_program.pdf)

Nutritional supplements for athletes, supplements from domestic and foreign manufacturers that have been registered by the Ministry of Health of the Slovak Republic and the Czech Republic and, in the case of foreign competitors, approved by the relevant institution are allowed.
3. Confirmed application submitted through the iCompete natural electronic system. (www.icompetenatural.com). After this deadline, further applications will not be accepted by the system. It is then possible to only register on the spot on the day of the competition for an additional fee of 20 euros, the coach's entrance. 20 euros (backstage plus audience)
4. By submitting an application for the competition, the contestant is granted iCompete Natural Slovakia o.z. in connection with the competition, consent to the free use and distribution of the likeness, images and video recordings created during this competition for marketing purposes.
5. Good health. By submitting an application for the competition, the competitor confirms that he is competing at his own risk. at the same time, we recommend that each competitor check with their attending physician or a physical education physician.
6. The organizer of the competition reserves the right to merge or cancel the categories in the event that the categories are not filled with a sufficient number of competitors.
7. Weight limits - limiting the weight of competitors is one of the means to achieve a high level of sports even without the use of doping agents. The goal is not above-average "large volumes", but primarily symmetry, proportionality, density, appropriate design, symmetry and aesthetics.

Restriction by weight limits is one of the measures aimed at promoting the purity of natural competitors. An excellent form with adequate contouring can also be achieved with natural, "allowed" means. Drawing with acceptable volumes will be preferred. Weight limits in men's categories are as follows (except for Men's Athletic HW, there are rules limited by this category, for example HW 0 - height minus 100 equals weight)

Height and weight limits:

up to 160 (including) cm 0 kg
from 160 cm to 163 (inclusive) cm by 1 kg

from 163 cm to 166 (inclusive) cm by 2 kg

from 166 cm to 169 (inclusive) cm by 3 kg

from 169 cm to 172 (inclusive) cm by 4 kg

from 172 cm to 175 (inclusive) cm by 5 kg

from 175 cm to 178 (inclusive) cm by 6 kg

from 178 cm to 181 (inclusive) cm by 7 kg

from 181 cm to 184 (inclusive) cm by 8 kg

from 184 cm to 187 (inclusive) cm by 9 kg

from 187 cm to 190 (inclusive) cm by 10 kg,

etc., i.e. j. every 3 cm by 1 kg. Example: During the presentation, the competitor's height was measured as 176 cm. Its weight can therefore be a maximum of 82 kg. 176 cm - 100 = 76, 76 + 6 = 82 kg
There are no limits in the women's categories, however measurement and weighing will be provided at registration.

If the competitor exceeds the set limit, he will not be allowed to compete, and the entry fee will not be returned to him or the coach.
WARNING !!! The organizer declares that he will ensure maximum correctness and accuracy in weighing and measuring.
